Treatment available for

Dogs

Cats

- Preventive care (vaccines, spay/neuter surgeries)
- General care (internal medicine, surgical care)
- Special care
(dermatology, cardiology, orthopedics, anesthesiology, oncology)
- Exotic animals

Island Vet provides a wide range of medical procedures from daily preventive care to special care cooperating with dermatology, cardiology, oncology, and orthopedics specialists.

We hear the voices of animals who do not speak and commit ourselves to select the best treatment for them with their family.

Our staff members always update their medical knowledge and aim to have a comfortable atmosphere when pets' owners have a consultation.
